Dental for Schools

Mobile dental services

Dental for Schools is a free mobile dental service which will be visiting our school from February 17-19. The team provide comprehensive dental care through the Federal Governments Child Dental Benefits Schedule (CDBS) which provides financial support for families. If your child doesn't have a form, it's not too late! Head over to the front office to collect a spare form and return the completed form to the office as soon as you can.

This year, our school is lucky enough to have access to the Growing with Gratitude program. Growing with Gratitude is a program that helps to build and support the wellbeing of children. This is achieved through learning experiences which teach students skills in practicing gratitude, kindness, empathy, mindfulness and serving others, resulting in greater resilience and happiness. We have also been given a family-access account. So if you would like to check it out and get some ideas on how else you can support your child's wellbeing at home, head to:
